

PACK-MAID® Packing Tamping Tool

Tool used for easier assembling of the stem packing on pumps and valves

For the best results when packing a stuffing box, each packing ring should be tamped firmly into place to insure a seal to the shaft and the walls of the stuffing box. These tools are designed to help you accomplish that.

The tamping tools are made of a flexible high-strength material.

Set includes 2 tools, 5/16" / 8mm dia. And 3/8" / 9.5mm dia.
